You Can Changes Lives!

For 25 years, GLAD House has been Giving Life A Dream to children of addicted parents. With every life that we change, we are so grateful for each one of our supporters who have made our mission possible!

Last year, 11-year-old Marshall came to GLAD House with one goal: to make one friend before he graduated.

Before coming to GLAD House, Marshall had a lot of factors that were keeping him from finding friends. Both of his parents were addicted to drugs, and he moved from school to school as they were forced to move homes and live in unsafe neighborhoods. Shortly after arriving to GLAD House, Marshall witnessed a violent dispute between his neighbors outside his home, where one of the neighbors was shot. Eventually his parents lost custody, and Marshall is currently in foster care.

Marshall didn't know how to process the trauma that he had experienced and witnessed, and wondered if something was wrong with him because of his very normal

reactions to traumatic events. But as soon as Marshall began therapy at GLAD House, he opened up very guickly—he could see how his parents' choices had devastated their lives, and he did not want his past to have a long-term impact on his future.

Marshall learned that he could trust his GLAD House therapist, and he bonded very quickly with his peers, who are all in the same position of having lived with an addicted caregiver. For the first time in his life, Marshall felt supported and understood, and not judged or ostracized!

This spring, after a year of hard work, Marshall was ready to graduate from GLAD House! We brought him a cap and gown, and he celebrated with not just one new friend, but all of his new GLAD House friends!

Your support is changing lives. Thank you for helping us break the cycle of addiction in children like Marshall!
